

Today we are a proud official representative of *Caterpillar* machinery in Lithuania. It all started in 1987, when one of the first tool and machine rental companies in French-speaking Switzerland – Outiloc – was established. 30 years later, with strong Swiss roots, we are now operating not only in Switzerland, but also (for the first time outside our borders!) in Lithuania. We are the only ones in the world, who can offer you such service – we are always trying to step ahead, change together with our customers and fill their needs instantly!

Today we have 21 branches in Switzerland and a brand new branch in Lithuania. 150 professional employees are working – each and every one of them is a valuable part of Avesco Rent family. But we are an ambitious company that grows fast. Next stop – new branches in Lithuania and Estonia in 2019!  
We believe that *it's easy, when it's easy.*

Avesco Rent Lithuania UAB will establish its first specialized equipment rental branch in **Kaunas** in order to offer even better customer advice and specific expertise in the whole country.

## **Avesco Rent Lithuania UAB is therefore looking for an ENGLISH SPEAKING RENTAL COORDINATOR**
